
Validation of new combinations in *Pseudorhizoclonium* Boedeker (*Cladophoraceae*, *Chlorophyta*)

A.R. Sherwood, *Department of Botany, 3190 Maile Way, University of Hawai‘i at Mānoa, Honolulu, HI, USA 96822* (correspondence: asherwoo@hawaii.edu)

C. Boedeker, *School of Biological Sciences, Victoria University of Wellington, PO Box 600, Wellington 6140, New Zealand*

F. Leliaert, *Meise Botanic Garden, Nieuwelaan 38, 1860 Meise, Belgium, and Phycology Research Group, Biology Department, Ghent University, 9000 Ghent, Belgium*

It was recently brought to our attention that three new combinations proposed for the green algal genus *Pseudorhizoclonium* Boedeker (Sherwood *et al.* 2019) are invalid as they do not meet the requirements of ICN Art. 41.5 (Shenzhen Code, Turland *et al.* 2018) in that the exact publication pages of their basionyms were not cited. Here we formally effect valid publication of these names:

Pseudorhizoclonium fractum (Ichihara & Miyaji) Boedeker, Leliaert & A.R.Sherwood, *comb. nov.*
Basionym: *Rhizoclonium fractum* Ichihara & Miyaji, *Phytotaxa* 266(4): 245, figs 5, 6, 2016.

Pseudorhizoclonium minutissimum (Zeller) Boedeker, Leliaert & A.R.Sherwood, *comb. nov.*
Basionym: *Cladophora minutissima* Zeller, *Journal of the Asiatic Society of Bengal* 42(2): 188, 1873.

Pseudorhizoclonium umbraticum (Ichihara & Miyaji) Boedeker, Leliaert & A.R.Sherwood, *comb. nov.*

Basionym: *Rhizoclonium umbraticum* Ichihara & Miyaji, *Phytotaxa* 266(4): 246, figs 9, 10, 2016.

Many thanks to Dr Michael J. Wynne for bringing this matter to our attention.
